

Luigi Langella

Full Stack Software Developer

Profile

I'm a skilled Full Stack Developer with a wealth of diverse life and technical experience that I bring to every project. I follow form as well as function. I know that the aesthetics of effective design combined with application speed, security and reliability combine to create a great user experience. I work quickly and effectively in getting things built and working across the stack. I'm an excellent communicator who thrives in bright and enthusiastic teams and I'm also a self starter when working solo.

Employment History

Freelance Software Developer at Self Employed, Torquay Devon UK

February 2020 — Present

After 20 Years in the Catering Industry and due to a life long passion in all that regards I.T. I decided to take my self taught knowledge of programming languages to a professional level and have a career change. I now have confidence to embark on a various arrays of projects due to my proficiency in different languages and frameworks. My skills include Python, Java, JS, HTML5, CSS, CSS3, Flask, Django, MySql, MongoDB, Sqlite3, Heroku, Git...and much more.
